Product Description

You've never played Hangman like this before! The world's favorite time-killer game takes an absurdist twist of comical proportions. Set in various settings, your mission is to save the Hangman from his enemies by guessing the hidden word correctly. If you guess incorrectly, you put him one step closer to death, and he'll eventually be shot, strangled, erased, or hanged by his enemies. *Extreme Hangman* is first networked Hangman game that not only allows you to pit against other players via mobile-to-mobile, but also mobile-to-PC!

B. Single Play

In Single Play, you'll be able to play a traditional game of hangman but with animated scenes. You'll have to guess the word from the category you've chosen. If you guess the right letter, it will be drawn above one of the underscores. If you guess the wrong letter, an animated hand will put your Hangman closer and closer into harm's way. You can use the "Hint" feature by pressing the "#" key. Number of hints will be limited based on the difficulty setting.

C. Challenge Mode

In this mode, two people can play on one mobile device. As the first player, you can implement a word of your creation. Once you've created the word and select "Finish," the game will load and it will be the second player's turn to take the mobile device and guess what you've implemented. For added fun, take turns creating and guessing the word.

D. Network Mode

In the Network mode, you'll be able to play a two-player game of hangman. Once you've chosen this mode, you'll have the opportunity to either play a buddy or enter a random game. In gameplay, the player challenged will have the option of choosing the game category. Players will have to create user names and passwords to access the Network mode. User names and Passwords must 5-10 characters long.

Tips and Tricks

Letters R, S, T, L, and N are popular consonants if you have to make a blind guess. All words have vowels so it's always good to guess some if you haven't already. Use the "Hint" feature to help you guess the word.
